

Health & Safety Policy

Amharc's services include the installation of formwork, reinforcement and concrete for structures including bridges, tanks and pits, retaining walls, structural footings, pile capping beams and slabs. Amharc also carry out stressing and grouting of bridge decks as well as providing polypipe welding services and labour hire services for reinforced concrete trades and general labourers.

Amharc is committed to the safety and health of our people, clients, subcontractors, and to anyone affected by our work. We believe that a safe project is a successful project and that all injuries are preventable.

Our goal is to achieve and maintain Zero Harm for any of our deliverables. Our target is to have no incidents or accidents on any of our projects.

We aim to achieve this by;

- Establishing, implementing and maintaining a Safety Management System, compliant with Australian standard AS/NZS 4801 and certified by a third party.
- Promoting a safety conscious culture amongst our stakeholders including our employees, subcontractors and suppliers while also working closely with our clients to help them achieve their goals;
- Meeting and exceeding requirements set out in legislation or codes of practice;
- Providing training and information to employees to continually improve behaviour and practices.
- Encouraging employees to actively participate in the identification of hazards in their workplace;

Amharc is committed to the safety, health and well-being of our people and those around us. We have systems and processes in place that move us beyond compliance as we strive for continuous improvement. At the forefront of everything we do, we promise to strive to achieve zero harm.
